### EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

The non-elected withdrawn claims 38-40, 48, and 61-67 have been canceled.

The following is an examiner's statement of reasons for allowance: prior art does not teach nor render obvious a system for processing an input signal that has, in combination with other limitations, a delay subsystem for providing a delay to a replica of said input signal to produce a delayed signal, said delayed signal being used by said adaptive predistortion subsystem and said feedback processing subsystem, wherein said signal processing subsystem decomposes said input signal into separate components to produce said at least two internal input signals, each of said separate components being processed separately and said processing subsystem combines said predistorted signals after processing to produce said system output signal; nor does it have an adaptive predistortion subsystem that has, in combination with other limitations, the adaptive predistortion subsystem protects against subsystem instability by only updating said determining means in specific predetermined instances.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
